

## **How to come to AlbaNova Center, KTH**

---

The AlbaNova Centre is located at Roslagstullbacken 21, 10691, Stockholm (main entrance of the building at 5<sup>th</sup> floor). You can also enter by Rudammsvägen downhill of Rudammsvägen 39 (same building but other side entrance at 1<sup>st</sup> floor). The Cell Technology group is located at door B11 on floor 1 of this building and belongs to the Dept. of Industrial Biotechnology, School of Biotechnology, KTH. You can come directly to our door (B11) without passing the reception (but in case you need it, the reception is located at floor 5).

### ***By taxi***

Give the address Roslagstullbacken 21 (taxis have problems finding Roslagsvägen 30D). You are coming at the main entrance of the building situated at the 5<sup>th</sup> floor.

### ***By car***

When you enter by Rudammsvägen downhill of Rudammsvägen 39 (entrance at 1<sup>st</sup> floor), there is a vehicle parking (80 spaces) along the north side of the main building. Do not forget to pay parking fee (visa cards accepted). Take entrance 30D (this is the 1<sup>st</sup> floor).

### ***By subway***

The nearest underground station is Tekniska högskolan on the red line. By foot, take the station exit 'Körsbärsvägen' and either take bus 61 or follow Körsbärsvägen up and over the hill to AlbaNova. This way you are coming from the main entrance which is at Roslagstullsbacken 21 (entering at the 5<sup>th</sup> floor). Or you can take Rudammsvägen downhill of Rudammsvägen 39 (same building but other side entrance at 1<sup>st</sup> floor).

### ***By bus***

A number of bus lines stop close to AlbaNova building on Valhallavägen. Other busses stop on Roslagsvägen, from which there is a pedestrian path passing around a large work construction area on its East.

Stopping close to the main entrance of the building at 5<sup>th</sup> floor, the most convenient is bus 61, which has a bus stop close to the main entrance, next to the roundabout at the end of Ruddammsvägen. The stop is 'Ruddammen' (Stockholm).

For information about the public transportation, use the 'journey traveller SL Stockholm'

***From the main KTH campus by foot***

There is a pedestrian bridge to Albanova from Drottning Kristinas väg (around nr. 55a). After the bridge take to the right in Ruddamsvägen. When you come to a crossing where Ruddamsvägen is turning to the left uphill, there is another bridge to the right and a gate straight ahead for cars. Cross the gate and follow the road going straight ahead downhill. You already see the Albanova building down on your left (large rounded building). Take entrance 30D (this is the 1<sup>st</sup> floor).
